Re: Journal Broadcast Corporation  
KYQQ(FM), Arkansas City, Kansas  
Facility Identification Number: 37121  
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed October 30, 2009, on behalf of Journal Broadcast Corporation ("JBC"). JBC requests extension of the special temporary authority ("STA") granted on May 11, 2009, to operate Station KYQQ with emergency antenna facilities pursuant to Section 73.1680 following the collapse of its licensed tower.<sup>1</sup> In support of the request, JBC provides a report of its progress toward reconstruction of the licensed tower.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made substantial progress toward restoring licensed operation. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KYQQ may continue to operate with the following facilities:

---

<sup>1</sup> KYQQ is licensed for operation on Channel 293C0 (106.5 MHz) with effective radiated power of 100 kilowatts (H&V) and antenna height above average terrain of 390 meters.

Geographic coordinates:	37° 14' 42" N, 96° 54' 19" W (NAD 1927)
Channel	293 (106.5 MHz)
Effective radiated power:	3.1 kilowatt (H&V)
Antenna height:	
above ground:	98 meters
above mean sea level:	498 meters
Above average terrain:	118 meters

JBC must notify the Commission when licensed operation is restored. JBC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **May 2, 2010**.

Sincerely,

Charles N. Miller, Engineer
